PROJECT EXPERIENCE

BreakDown Task App — Web-based task manager

- C# .NET application specifically designed for individuals who thrive when tasks are broken down into smaller tasks

WORK EXPERIENCE

Teacher — Riverview Gardens School District, St. Louis, MO

August 2020 - October 2020

- Planned and facilitated online-based full-day instruction
- Created an interactive classroom website to convey information to parents and connect students directly to curriculum resources.
- Additionally, provided daily tech support and education for teammates in utilizing educational technology, building class websites, editing and uploading video lessons, desktop publishing, document camera usage, and other skills related to online teaching.
- Converted all grade-level record-keeping from paper to Google Sheets to increase accountability and efficiency

Teacher — Confluence Academy, St. Louis, MO

August 2019 - May 2020

- Provided technical support on Windows, Android, and IOS devices to families and teammates in transition to online learning
- Adapted in-class learning materials and content for use in both synchronous and asynchronous online lessons
- Served as secretary in biweekly Professional Learning Communities

Teacher — Metro Charter School, Los Angeles, CA

August 2018 - June 2019

- Adapted all academic subjects and created interventions for English Learners, exceptional learners, and at-risk students
- Created culturally-responsive, place-based local history project, integrating language arts, science, social studies, technology, & art
- Collaborated in development of best practice models for teaching
